Watermain Being Repaired in the Whiskey Creek Water Service Area

Regional District of Nanaimo (RDN) crews discovered a significant watermain leak on Poplar Way in Whiskey Creek this afternoon and are working to repair it as quickly as possible. Water service will be interrupted for a number of homes between Crocus Road and the highway while the repair is being completed. RDN staff are going door to door to alert the affected households.

Traffic control will be in place on Poplar Way while the repairs are being made. Please remain alert to the directions provided by the traffic controllers through this area.
