

Nanoose Bay Peninsula Water Service Area – Water Supply Disruption

A small watermain break occurred today, January 11, 2022, in the 3700 block of Dolphin Drive in Nanoose Bay. Crews are on-site isolating the broken watermain. Homes on Dolphin Drive from Andover Road to Mallard Place and on Mallard Place will be affected by an emergency shut down of the water supply that was required at approximately 11:30 a.m. Customers can expect low pressure and/or no water. Repair work will take a few hours, however the crews will work to get the water service back online as soon as possible. We thank residents for their patience.
