NO MOW MAY

This May, consider allowing lawn flowers to bloom for pollinators such as bees and other insects, helping protect biodiversity. Keeping your grass long also helps shade and protect the soil below, increasing water retention for a healthier, more water efficient lawn. This is referred to "Slow Mow/ No Mow May" and is a growing community movement across Canada and the U.S. For more tips on efficient lawn maintenance, check out the Team WaterSmart Get Involved www.getinvolved.rdn.ca/team-watersmart.

WATERING RESTRICTIONS

This allows even or odd day watering based on house number, for a maximum of two hours between 7 and 10 a.m. or 7 and 10 p.m. This watering schedule comes into effect annually, helping everyone get in the habit of water conservation as we move into the summer months. TRANSIT SURVEY

The Comox Valley Regional District (CVRD) and BC Transit, in collaboration with the RDN, are conducting a Transit Future Action Plan survey until May 12, 2022, to identify improvements to CVRD transit services. One of the survey topics is a proposed interregional transit service between the CVRD, RDN and south island. Residents within the RDN are encouraged to complete questions 1 to 10 and 41 to 46 of the online survey at <https://engage.bctransit.com/comoxvalley2022>. Your feedback will help determine the need for interregional transit service to the CVRD.
