WOODSTOVE REPLACEMENT PROGRAM

Got a woodstove? Take care of your neighbourhood's air! Poorly managed or old wood stoves create a lot of smoke that can settle in your neighbourhood, impacting the health of your family and your neighbours. Do your part to reduce or eliminate smoke:

- ✓ Burn only dry, seasoned wood and a small bit of newspaper
- ✓ Replace your old smokey stove with a new clean burning option (rebates available!)
- ✓ Never let your fire smolder
- ✓ Take time to observe how smokey your stove is. Modern wood stoves, properly operated, produce next to no visible smoke.

When you exchange your old woodstove for a cleaner heating option, you may be eligible for a rebate up to \$750! Learn more about our woodstove replacement program at: www.rdnrebrates.ca.
