

## Construction Notice Update Carson Road, Hebert Road and Poplar Way: extended to January 2023

The Regional District of Nanaimo (RDN) is installing new watermain on Carson Road, Hebert Road and Poplar Way in the Whiskey Creek area of Coombs/Hilliers, as shown in the map below. The work has been extended to at least late January. One lane of traffic is expected to remain open at all times while the work is underway. Project construction will continue in the area until the end of February but will not impact the roadway after January.

A brand-new water transmission main will be installed from the existing well site to the reservoir in order to replace the temporary overland watermain. In addition, the distribution pumps, control system and backup power will be modernized.

Further notices will be provided as needed, including any planned water service interruptions. Please visit [rdn.bc.ca/whiskey-creek](http://rdn.bc.ca/whiskey-creek) for more information about the Whiskey Creek Water Service Area.
