Water Service Interruption - Whiskey Creek Water Service Area

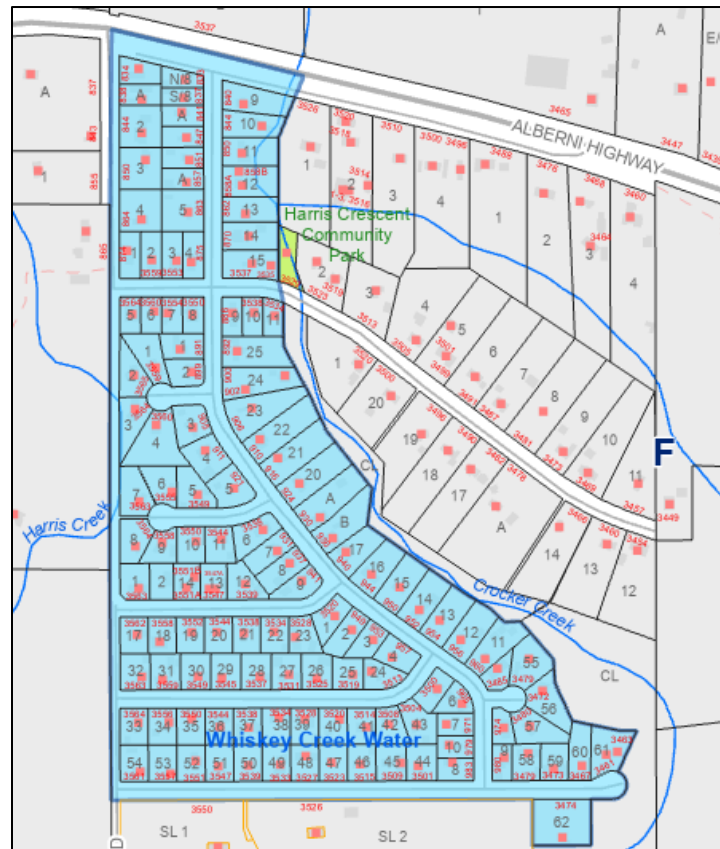

Water service will be temporarily interrupted for four to six hours in the following area while the construction crew is installing a new connection valve at the booster pump station on Poplar Way. The impacted area will be the entire Whiskey Creek Water Service Area.

Whiskey Creek Water Service Area

January 12, 2023, from 10 a.m. to 4 p.m.

The above time is not definite, and the Regional District of Nanaimo (RDN) will endeavor to keep you in service as long as possible and have the water back in service as quickly as possible after the initial shutdown occurs. Please have water on standby for all domestic use.

When service is resumed, the water may be discoloured. This is due to disturbed deposits in the pipes and is not harmful. The RDN is not responsible for any damage resulting from interrupted service. Please visit rdn.bc.ca/whiskey-creek for general information about the Whiskey Creek Water Service Area.
