Questions and Answers

This following is a compilation of questions received from possible proponents from June 5 to June 26 at 10:00 am, and the answers to these questions

Q1

May we please submit our own PDF that follows your format. We are having some difficulties with the adding and editing responses on the small boxes on the form.

A1

If preferred, responses to questions on the Submission form can be provided in a PDF in the Supplemental Information package. If this approach is taken, Proponents must clearly link their responses to the questions (for example, by adding a note on the form).

However, the Submission Form must be submitted. It needs to be signed as well.
