

REQUEST FOR TENDER NO. 23-062
Addendum No. 2

Transportation of Sludge from NBPCC to FCPCC

Issued: September 11, 2023

Closing Date & Time: on or before 3:00 PM Pacific Time on September 21, 2023

This addendum shall be read in conjunction with and considered as an integral part of the Request for Tenders. Revisions supersede the information contained in the original Request for Tenders. No consideration will be allowed for any extras due to any Proponent not being familiar with the contents of this Addendum. All other terms and conditions remain the same.

Questions and Answers:

This following is a compilation of questions received from possible Proponents from September 11, at 12 pm, and the answers to these questions.

Q1. How much is the daily volume?

A1. The volume is 3,000 imperial gallons per load, hauling is expected to be done three times a week.

Q2. What are the facility's open and closing times?

A2. Nanoose Bay Pollution Control Centre hours are 8 am to 5 pm. French Creek Pollution Control Centre opens at 8 am and closes at 4 pm Monday to Friday, 8 am to 3 pm on Saturdays, 8 am to 10 am on Sundays and Public Holidays.

Q3. Are pumps provided for loading and unloading?

A3. The Regional District does not provide pumps for loading and unloading, rather relies on the truck's vacuum ability to get the sludge into the trucks at the Nanoose Bay Pollution Control Centre and at the French Creek Pollution Control Centre the Regional District relies on a gravity feed system to unload the truck.
