

Web Map Upgrades Scheduled for July 20, 2024

Some of the Regional District of Nanaimo's (RDN) web maps will be unavailable on Saturday, July 20, 2024, at 7 a.m. for approximately 12 hours as we upgrade our web mapping servers.

During the service window, members of the public will be unable to access the following web maps:

- RDN public web map
- Lantzville web map

All other mapping applications will remain online, and can be found on our GIS Mapping web page at rdn.bc.ca/gis-mapping.

Your patience is appreciated while we complete the server upgrades.

For more information, please contact:
