

## RDN Web Map Service Disruption

Some of the Regional District of Nanaimo's (RDN) web maps are not available due to a service disruption of the main web map. We are working with the mapping software support team to resolve this as soon as possible.

Several task-specific web maps are not affected by the service disruption and are available for use. These include:

- Zoning and utility look-up
- Fire protection and open burning regulations
- Parks and trails
- Assessment information

All mapping applications can be found on our GIS Mapping web page at [rdn.bc.ca/gis-mapping](https://rdn.bc.ca/gis-mapping).

Your patience is appreciated while we work to resolve this issue.
