River's Edge Well Drilling Project – Site Clearing in Park Land

Date: May 1 - 9, 2025 (including the weekend)

Time: 8 a.m. to 4:30 p.m.

Trail Closure: May 1 - 4, 2025 at Kaye River's Edge Community Park

As part of the Well Drilling Project, site clearing will take place at the four well drilling sites, as identified on the site map on the following page. The Regional District of Nanaimo (RDN) has contracted Elshaw Contracting to remove four small trees from the locations of PW05, PW06 and PW08 and several trees at the site of PW07. Tree removal at PW05, PW06 and PW08 will not affect park users however, the park trail at site PW07 will be temporarily closed for 3-4 days while tree falling is underway. The temporary park trail closure will be marked with signs at both entrances to the trail. As part of the well site preparation, the trail will be realigned near PW07 to ensure that park use may safely resume after the trees have been felled.

Tree falling work is expected to begin on Thursday, May 1, 2025, and will take place during daylight hours. Intermittent loud noise from a chainsaw and woodchipper can be expected, in addition to low levels of construction noise from a small excavator. No interruption to traffic flow on the roadway is expected. For your safety and the safety of the work crew, please remain alert to work activities and obey any posted signs.
