

REQUEST FOR STANDING OFFERS

24-030 Engineering and Geoscience Consulting Services

Addendum #4

Issued: May 20, 2025

This addendum shall be read in conjunction with and considered as an integral part of the Request for Standing Offers. Revisions supersede the information contained in the original Request for Standing Offers. No consideration will be allowed for any extras due to any Proponent not being familiar with the contents of this Addendum. All other terms and conditions remain the same.

Questions and Answers

This following is a compilation of questions received from possible proponents from May 14, 2025, to May 20, 2025, and the answers to these questions:

Q1. Regarding Section 6.2.2, which requests five project references per Area of Specialization, several of our proposed team members have recently joined our firm and bring with them substantial experience directly relevant to the RDN's requested service categories. While these projects were delivered under previous employers, these staff held senior roles in their execution and would be directly responsible for similar work under this Standing Offer. Could the RDN confirm whether such project examples—delivered by current personnel at prior firms—can be submitted as part of the firm's response to Section 6.2.2?

A1. Our preference would be for project references for projects which were undertaken by the Proponents for the Standing Offer and their personnel.

However, if this is not available, projects undertaken by senior personnel at their previous employers can be included in as long as the senior personnel and previous employer are clearly identified.

Experience from previous employers can be included in the resumes. This should be clearly identified though on the resume.
