This addendum shall be read in conjunction with and considered as an integral part of the Request for Proposal. #### **Questions & Answers**

- Q1.** Could you clarify the intent and level of effort for task #2 (reviewing and providing recommendations on capital cost estimates), specifically whether we should only review cost estimates prepared by the RDN for the DCCs or also contribute significantly to their development and refinement?
- A1.** The requirement is to review the estimates and provide comment on any concerns or opportunities for refinement/improvement.
- Q2.** Similarly, could you clarify the intent and level of effort for task #3 (reviewing and providing recommendations on the DCC calculations), specifically whether the RDN will be preparing these calculations or whether the successful proponent will also be contributing significantly to their development?
- A2.** The RDN will be preparing the calculations. The successful proponent will be reviewing the data to identify any errors and make recommendations to address them. Population and development projections are from member communities, and so their calculation is out of the scope of this project.
