

## Upcoming Building Professional Training Opportunities

The RDN and the Community Energy Association are partnering to offer hands-on training that helps builders and industry professionals meet Step Code requirements and build better, more efficient homes. This training will provide useful, practical skills that make high-performance construction easier, more consistent and more cost-effective in our region.

Visit [rdn.bc.ca/industry-training-opportunities](https://rdn.bc.ca/industry-training-opportunities) for more information and to register.
