MANUFACTURED HOME GUIDE

Want a cozier home and lower energy bills? The RDN's **Energy-Efficient Upgrades in Manufactured Homes Guide** shows you the upgrades that make the biggest difference, and how to get rebates up to \$19,000, free weather-stripping, and expert support.

Inside the guide, you'll learn how to:

- Cut drafts and reduce bills with better insulation, efficient windows, and weather-proofing.
- Stay cooler in summer and warmer in winter with an electric heat pump.
- Access rebates for heat pumps, window upgrades, insulation, skirting, and more.
- Get free step-by-step support from the Home Energy Navigator Program to choose upgrades and review quotes.

These improvements can boost comfort, reduce greenhouse gas emissions, and may even increase your home's value.

MANDATORY WASTE SOURCE SEPARATION

Time to Sort Smart! Keeping food scraps and recycling out of the landfill starts with the right bins.

Under the RDN's Mandatory Waste Source Separation Bylaw, **businesses, organizations and multi-family residences** are required to provide clearly labelled bins for food scraps, recycling, and garbage, making three-stream sorting easy and effective!

For more information visit www.getinvolved.rdn.ca/sort-smart.
