## RDN Curbside Collection Restored to Full Service

The Regional District of Nanaimo (RDN) is pleased to announce that the RDN Curbside Collection service will be fully restored by Saturday, June 27 with no further impact expected. The RDN appreciates residents' patience while a viable solution was explored following the fire at a partner facility on June 24 that caused significant damage to the area used for collected recyclables. The RDN also thanks its curbside collection partners for the coordinated effort which has resulted in restoration of service within just a few days of the incident.

Due to the temporary service disruption, some residents did not have their organics and recyclables picked up yesterday, and a small portion of today's curbside customers may also experience missed collection. Affected households will see their service restored on Saturday, June 27. Tipping fees will be waived at the Church Road Transfer Station and the Regional Landfill for recyclable and organic materials from residents in the affected area through the weekend should they wish to dispose of these items before their next scheduled pick up.

Residents are encouraged to download the RDN Curbside app to receive direct updates on any impacts to services when they happen. For information on curbside collection, schedules, updates and to download the RDN Curbside app, visit [www.rdn.bc.ca/curbside](http://www.rdn.bc.ca/curbside).
