

**Drain your oil & oil filter.**  
And remember, the filter has to drain for 12 hours.

**Put the filter into a bucket.**

**Find a container.**  
An old oil container is the best choice.

**Transfer the oil.**  
Use a funnel to avoid spills.

**Clean up any spills.**  
Some kitty litter or woodchips absorb oil nicely.

**Seal the container.**

**Drop off the oil.**  
Don't leave it in the alley, bring it inside. Then, enjoy the road for another year.

**Find a recycling centre.**
